

CONTENTS OF VOLUME 30

Number 1

Reliability of Scale-Model Researches: a Concert Hall Case A. COCCHI, A. FARINA & L. ROCCO (Italy)	1
Changes of the Shinkansen Super Express Railway Noise since the Opening in 1964 YOHZOH OKUMURA & KAZUHIRO KUNO (Japan)	15
Determination of Intensity Flux Lines for Analysis of Acoustic Radiation T. LOYAU, J. C. PASCAL & P. GAILLARD (France)	29
Sound Transmission Paths through a Statistical Energy Analysis Model ROBERT J. M. CRAIK (UK)	45
Technical Notes	
The Microcomputer as an Aid to Understanding Vibrations N. POPPLEWELL (Canada)	57
Study of Motional Admittance of Piezoelectric Transducers with Different Pressure Release Backings at Hydrostatic Pressure of 300 psi V. N. BINDAL, T. K. SAKSENA, S. K. JAIN, A. K. GUPTA & REETA GUPTA (India)	69
Book Review	79
Calendar	81

Numbers 2 & 3

Special Issue: Musical Acoustics

Guest Editorial	83
Nonlinear Theory of Musical Wind Instruments N. H. FLETCHER (Australia)	85
A Computer Study of the Effects of Harmonicity in a Brass Wind Instrument: Impedance Curve, Impulse Response, and Mouthpiece Pressure with a Hypothetical Periodic Input J. DUANE DUDLEY & WILLIAM J. STRONG (USA)	117
Experiments with the Violin String and Bridge ERIK V. JANSSON (Sweden)	133

Acoustics of Pianos	147
HIDEO SUZUKI & ISAO NAKAMURA (Japan)	
Measuring the Acoustical Properties of Mallets	207
INGOLF BORK (FRG)	
An Investigation of Vocal Vibrato for Synthesis	219
ROBERT MAHER & JAMES BEAUCHAMP (USA)	
Analysis and Synthesis of Atonal Percussion Using High Order Linear Predictive Coding	247
M. B. SANDLER (UK)	
Calendar	265

Number 4

Warble in Carillon Bells: An Investigation using Neutron Diffraction	267
G. M. SWALLOWE, R. PERRIN, T. CHARNLEY, D. J. PARRY, P. J. WEBSTER, G. MILLS & K. LOW (UK)	
Laser-Doppler Vibrometer Measurements of Acoustic to Seismic Coupling	279
W. PATRICK ARNOTT & JAMES M. SABATIER (USA)	
Vibrations of a Timoshenko Beam Clamped at One End and Carrying a Finite Mass at the Other	293
R. E. ROSSI & P. A. A. LAURA (Argentina)	
MSR Acoustic Vibrations Due to the HP and LP Tube Bundle and Cavity Interactions Using a Bond Graph Model	303
SURYA R. KALIDINDI & WINSTON G. PERERA (USA)	
Technical Notes	
Noise Absorption by Woven Fabrics	321
Y. SHOSHANI & G. ROSENHOUSE (Israel)	
Rasti Measurements in Mosques in Amman, Jordan	335
R. N. S. HAMMAD (Jordan)	
Calendar	347
